Other resources include Greek Revival and late Victorian parsonage, tenant house and clapboard barn.	96NR1058	961
Glens Falls Feeder Canal/ Historic District	Roughly between Richardson St. and the Old Champlain Canal	Washington	Linear	00000000	10/25/85	Opened 1823, allowing Glen Falls sawmills to process Adirondack timber, floated down the Hudson, into finished lumber. Local quarrying industries produced and shipped black marble, limestone, and lime to markets. A cluster of small frame and stone commercial buildings developed above the falls to support these industries.	90NR2738	261338
Hudson Falls Historic District/ Historic District	Roughly bounded by Oak, Mechanic, River, Maple and Main Sts.	Washington	Hudson Falls	8/12/83	9/15/83	Approximately 125 resources from early 19th to early 20th century; Federal, Greek Revival, Queen Anne, and Colonial Revival styles. Focus of district is a tree-shaded village park and main street. A fire in 1876 destroyed block east of the park. Row of Italianate and Romanesque Revival commercial buildings were constructed in their place.	90NR2751	212701

Table C-1e
National Register-Listed Resources in Washington County
Page 2 of 2

Resource Name/ Resource Type	Address	County	Municipal Civil Division (MCD)	State Register Date	National Register Date	Resource Characteristics	SPHINX Number	Area (Square Meters)
Old Fort House/ Building	29 Lower Broadway	Washington	Fort Edward	8/13/83	9/15/83	One contributing, 3 non-contributing; late 18th century Federal/Greek Revival style buildings. Oldest surviving building in Ft. Edward. Tavern, community center, British military headquarters and courthouse in the 18th and 19th centuries. Currently a museum.	90NR2757	961
Rogers Island/ Site	Upper Hudson River	Washington	Fort Edward		7/24/73	18th century military encampments-French and Indian War, Rev. War; great potential as an archeological site. 20th century excavation yielded high artifact count, hearth, stone foundations hut sites.		
Saint James Episcopal Church/ Building	112 Broadway	Washington	Fort Edward	10/28/97	1/7/98	No information available.	96NR1031	961
US Post Office--Hudson Falls/ Building	114 Main St.	Washington	Hudson Falls	00000000	5/11/89	Early 20th century Colonial Revival building erected as part of the public works projects initiated by the US government during the Great Depression; series of well-preserved 1937 murals within.	90NR2752	961

APPENDIX D
COMPENDIUM OF PUBLIC COMMENTS

APPENDIX D

COMPENDIUM OF PUBLIC COMMENTS

The public comments have been catalogued electronically and are provided on the six CDs included with this document. Compact Disk D1 contains introductory information and a database of the public comments and associated authors. Disks D2 to D6 contain PDF and image files representing the documents, statements, and emails submitted by the public to the Environmental Protection Agency during its public comment period (December 2000 through April 17, 2001). A description of each disk is provided in this Appendix.

Compact Disk One (D1)

D1 contains introductory information and a database listing the public comments and associated authors. On this disk, there are four PDF files and four tables in FOXPRO format. These FOXPRO tables can also be converted into other databases, such as ACCESS, ORACLE or SQL server. Table D-1 provides a brief description of the files on D1.

Table D-1
Contents of Disk D1

File Type	File Name	File Description
PDF Files	Table of Contents	Contents of CDs D1-D6
	Author Directory	List of authors, affiliations, comment numbers, and corresponding responsiveness summary section (including how to use the directory)
	Specifications	Detailed technical descriptions for the fields in each database table listed below
	Guide to Database Tables	Instruction on how to use the database tables
Database Tables	Authors	Contains the author information – individual author identification document
	Comments	Delimited significant public comments
	Links	Contains the relationships between the authors and comments tables using document barcode numbers
	Associations	Contains the public comments associated with each master comment

Table of Contents

The Table of Contents file contains the contents of each CD and is reproduced as Tables D-1, and D-11 to D-15 in this Appendix.

Author Directory

This file consists of three main components, an introduction to the directory, an electronic copy of this appendix, and the author directory itself. The author directory provides two means for searching the list of commenters. The main means is by the author's last name alphabetically.

The alphabetical listing also includes the commenter's city and state, the number of the PDF file representing their submittal, the assigned comment number or numbers, the associated master comment/response number, and the corresponding section of the Responsiveness Summary. In addition to the alphabetical listing, the directory also provides a means to search the comments by affiliation. This portion of the directory provides an alphabetical list of the organizations that submitted comments during the comment period. In addition to the organization name, the list contains one of the signing authors of the organization's submittal along with their city and state, the number of the PDF file representing their submittal, the assigned comment number or numbers, the associated master comment/response number, and the corresponding section of the Responsiveness Summary.

Specifications

The Specification file contains descriptions of the fields contained in the four databases (Authors, Comments, Links, and Associations) and is reproduced here as Tables D-2 to D-9. Tables D-2 to D-5 contain the extended titles for each field or column and Tables D-6 through D-9 contain the specifications for each field (*i.e.* type, width).

Table D-2
Field Descriptions for Authors Database Table

NAME	DESCRIPTION
doc_no	Document number assigned to file (usually matches label number)
pdf_no	Name of electronic file (usually matches document number except in cases of two documents on one page)
author_no	Author number assigned to each document (usually matches document and label number unless the document is a form or unless there is more than one respondent associated with a document)
box_no	box number of that document
doc_type	Document type (<i>i.e.</i> letter, post card, report, etc.)
date_sent	Date respondent put on their correspondence, otherwise the postmark date if readable (for resolutions, the resolution adopted date was put when known)
time_sent	Time when email sent out
subject	Subject of E-mail
fname	First name of respondent
lname	Last name of respondent
address	Street address of respondent (unless their address included a company or organization then the name of that organization would be entered)
address2	The street address of respondents whose addresses included a company or organization
city	City address of respondent (corrected for spelling, when known)
state	State address of respondent (2 digit entry for State or, if outside US, entire name of country)
zipcode	5 or 10 digit zip code address of respondent
email	email address of respondent
affiliation	Affiliation of respondent such as company or organization (only filled in when it appeared that respondent was representing all or part of a group)

Table D-2 (cont.)
Field Descriptions for Authors Database Table

NAME	DESCRIPTION
to_name	Name (first and last) of person that correspondence was addressed to
to_addr1	Address of recipient
to_addr2	Address of recipient
to_city	City address of recipient (corrected for spelling, when known)
to_state	State address of recipient
to_zip	5 or 10 digit zip code address of recipient
recipient	Recipient's email address

Table D-3
Field Descriptions for Links Database Table

NAME	DESCRIPTION
doc_no	Document number assigned to file (usually matches letter barcode number)
comm_no	Comment number assigned to each document

Table D-4
Field Descriptions for Comments Database Table

NAME	DESCRIPTION
comm_no	Comment number assigned to each document
comments	Public comment text
keyword1	Keyword of that public comment
keyword2	Keyword of that public comment
keyword3	Keyword of that public comment
keyword4	Keyword of that public comment

Guide to Database Tables

The file "Guide to Database Tables" provides instructions on how to locate public comments according to their author. The tables which comprise the Comment Database for this responsiveness summary are located in the folder entitled "Comment Database." These tables are intended for use in a database program such as Microsoft FoxPro™. These tables can be linked together to obtain information on various aspects of the public comments such as author names, comment text and PDF file number. A less detailed but simpler to use table of information is provided in the author directory described previously. A portion of the guide file is reproduced below.

To find significant comments by author:

1. Using the Authors.dbf table, search/query by first name, last name or other information provided.
2. When the record is located, the document number is provided in the column entitled "doc_no". The PDF number is provided in the column entitled "pdf_no" (i.e., the number of scanned image file).
3. Using the Links.dbf table, perform a search/query for the document numbers provided in doc_no to find their associated comment numbers in the column titled comm_no.
4. Using the Comments.dbf table, search/query the values provided in comm_no to find the text of these comments.
5. Using the Associations.dbf table, search/query the comm_no values to find the master comment numbers that incorporate the author's comments.
6. Use pdf_no to find the original PDF document. Determine the CD and directory from the first two digits of the pdf_no number. The first 2 characters from each PDF document indicate the directory in which the scanned document may be found. The following list provides a brief outline.

Table D-10
Outline of Prefix Numbers on the CD

CD	Prefix
D2	01- to 10-
D3	11- to 20-
D4	21- to 30-
D5	31- to 42-
D6	60- to 67-

Compact Disk Two (D2)

D2 contains the public comments documents with prefixes 01- to 10-. The contents of D2 are provided in Table D-11 below.

Table D-11
Contents of Disk D2

Note:

- Boxes 11, 12, and 13 contain the entire General Electric submittal, as well as appendices A through U, consisting of 19 volumes. Box 11 contains Volume 1, the main commentary. For the purposes of tracking GE comments, the eight sections of the main comment volume were included in the document number as the last two digits. For example, 11-0107 refers to the GE commentary, volume 1, and section 7. GE volumes 2 through 7 (appendices A through L2), are numbered 11-0200 through 11-0700. Box 12 contains volume 8 through volume 13 (appendices M through P2) and are numbered 12-0800 through 12-1300. Box 13 contains volume 14 through 19 (appendices Q1 through U) and are numbered 13-1400 through 13-1900. The table below relates the assigned GE comment numbers schema to the original GE PDF files as supplied by GE and furnished on this disk.

Box Number	PDF Document Numbers	Original GE PDF Files
